COMMENTARY

Vodacom Group (Proprietary) Limited, South Africa's market leader in the provision of cellular services announces its results for the year ended March 31, 2006.

SOUTH AFRICA

Customers

The South African customer base increased by 49.3% to 19.2 million (2005: 12.8 million) for the year ended March 31, 2006. The increase was driven by the exceptional growth in the prepaid market although excellent growth was also achieved in the contract market. The number of prepaid customers increased by 53.3% to 16.8 million, while the number of contract customers increased by 26.2% to 2.4 million. The strong growth in customers was a direct result of the remarkable number of gross connections achieved, coupled with decreased churn.

ARPU

Prepaid services have been the driving force behind market penetration in South Africa and contributed 92.1% (2005: 90.1%) to all gross new connections. During the period under review, ARPU decreased to R139 (2005: R163) per month. The continued dilution of ARPU is

caused by a higher proportion of lower ARPU as well as lower usage customers being connected to the network. Contract customer ARPU has decreased by 8.3% to R572 (2005: R624) per month. The main contributing factor to this decrease has been the high growth in data customers as well as the low end hybrid, Family Top Up package. The prepaid customer ARPU has decreased by 11.5% to R69 (2005: R78) per month.

Churn

Vodacom continuously focuses on retention of existing customers and acquisition of new customers. In 2006, Vodacom maintained a very low contract churn of 10.0% (2005: 9.1%). The decrease in prepaid churn experienced during the year under review to 18.8% (2005: 30.3%) is a result of a combination of the introduction of innovative products and services, loyalty initiatives and changes in business rules to ensure incentives are paid on factual connections.

Traffic

Total traffic on the network, excluding the impact of national and international roaming, has shown an increase of 20.0%

COMMENTARY continued

to 17.1 billion (2005: 14.2 billion) minutes in 2006. This growth was mainly due to the 49.3% growth in the total customer base from 12.8 million to 19.2 million as at the end of March 2006. Also evident was a marked change in customer calling patterns, with total mobile to mobile traffic increasing by 26.1% while total mobile to fixed and fixed to mobile traffic increased by only 1.7%.

Regulatory

Light touch regulation by all regulatory bodies have played an important role in the impressive market penetration achieved in South Africa. Both the Independent Communications Authority of South Africa ("ICASA") Amendment Bill and the Electronic Communications Bill ("ECB") (previously known as the Convergence Bill), have been passed by Parliament in December 2005. The President has assented to the ECB, but has referred the ICASA Amendment Bill back to Parliament.

Vodacom made written and oral presentations to Parliament on both bills. Although not all of Vodacom's concerns with regard to the ECB were addressed, the ECB was amended to address Vodacom's

two key concerns, i.e. the grandfathering of all current licensees' rights and obligations, and the provisions which dealt with price regulation and other market regulatory interventions to include due process and proper market studies.

The draft Information and Communication Technology ("ICT") BEE Charter is expected to be aligned with the Department of Trade and Industry ("DTI") Codes of Good Practice during July 2006 and to be released for public comment. Vodacom is committed to comply with the ICT BEE Charter when it is finalised.

ICASA has promulgated the Number Portability Regulations and the industry implementation date is expected to be in September 2006. The introduction of this facility could cause a flurry of market activities and it also presents Vodacom with the opportunity to increase its market share.

The effective date of the Interception of Communication and Communication-related Information Act ("RICA") was proclaimed at September 30, 2005. The sections of the interception and monitoring legislation prescribing a customer

registration process comes into effect on June 30, 2006. This cumbersome prepaid customer registration process will, however, have a significant negative impact on market penetration.

Market share

Despite strong competition, Vodacom has retained its leadership in the highly competitive South African mobile communications market with an estimated 58% (2005: 56%) market share on March 31, 2006. The South African cellular industry has grown by 44% in the last year and Vodacom has contributed to approximately 63% of this growth. The market penetration of the cellular industry is now an estimated 71% (2005: 49%) of the population.

OTHER AFRICAN OPERATIONS

Vodacom's other African operations, which provide a world-class global system for mobile communications ("GSM") service to millions of customers, are all faced with continued challenges such as competition from other operators as well as rigorous regulatory changes. All these operations, with the exception of Mozambique, showed excellent profit growth for the year ended March 31, 2006.

Vodacom Tanzania achieved exceptional customer and profit growth. The customer base increased by 74.1% to 2.1 million (2005: 1.2 million) at March 31, 2006. The Tanzanian market remains highly competitive, but with mobile penetration estimated at 9.2% of the population, it still promises further growth potential. Vodacom Tanzania's market share decreased slightly to 58% (2005: 59%) at March 31, 2006.

Vodacom Congo remains the market leader with an estimated market share of 48% (2005: 47%) at March 31, 2006. The DRC has the lowest estimated mobile penetration of all Vodacom's operations at 5.5% of the population. Notwithstanding the uncertainties surrounding the planned elections in the coming year, Vodacom Congo increased its customer base by 52.2% to 1.6 million (2005: 1.0 million) at March 31, 2006.

Vodacom Lesotho is expected to remain a small operation, but has positioned itself well to minimise the impact of competitive activity and has maintained its estimated 80% market share at March 31, 2006. Vodacom Lesotho increased its customer base by 40.1% to 206,000 (2005: 147,000).

COMMENTARY continued

Mobile penetration in Lesotho is now estimated at 12.9%.

March 31, 2006. Mobile penetration is estimated at 8.4%.

Vodacom Mozambique's estimated market share of 30.0% (2005: 33.0%) has decreased due to strong competition from the established competitor mCel, despite offering competitive coverage through an aggressive coverage roll-out programme. Vodacom Mozambique increased its customer base by 84.9% to 490,000 (2005: 265,000) at

SHAREHOLDER CHANGES

Vodafone increased its effective shareholding in Vodacom from 35% to 50% by acquiring a 100% shareholding in VenFin Limited, who owns 15% in Vodacom Group (Proprietary) Limited. This transaction highlighted Vodafone's major commitment to Vodacom and the African continent.

FINANCIAL REVIEW

REVENUE

Geographical split

| Year ended March 31 | Rand millions | | | % change | |
|---|---------------|---------------|---------------|-------------|-------------|
| | 2004 | 2005 | 2006 | 05/04 | 06/05 |
| South Africa, including holding companies | 21,350 | 25,041 | 31,069 | 17.3 | 24.1 |
| Tanzania | 897 | 959 | 1,312 | 6.9 | 36.8 |
| DRC ¹ | 476 | 1,075 | 1,334 | 125.8 | 24.1 |
| Lesotho | 119 | 137 | 170 | 15.1 | 24.1 |
| Mozambique | 13 | 103 | 158 | 692.3 | 53.4 |
| Revenue | 22,855 | 27,315 | 34,043 | 19.5 | 24.6 |
| DRC (49%) ¹ | 457 | - | - | - | - |
| Adjusted revenue | 23,312 | 27,315 | 34,043 | 17.2 | 24.6 |

Note:

1. During the year ended March 31, 2004, 51% of Vodacom Congo was proportionally consolidated in the Group financial statements. Effective April 1, 2004, Vodacom Congo is being fully consolidated as a subsidiary after certain clauses granting the outside shareholders participating rights have been removed from the shareholders' agreement. The adjusted revenue for 2004 reflects 100% of Vodacom Congo's revenue for comparative purposes.

Revenue increased by 24.6% to R34.0 billion (2005: R27.3 billion), of which Vodacom's other African operations contributed 8.7% (2005: 8.3%). The increase in revenue was primarily driven by the 51.9% increase in the Group customer base coupled with a

7.2 percentage point drop in overall churn to 19.6%. Group ARPU decreased by 16.0% to R127 per month mainly due to the majority of the growth in the customer base being achieved in prepaid customers and the lower end of the contract market.

Revenue composition

| Year ended March 31 | Rand millions | | | % change | |
|--------------------------------|---------------|---------------|---------------|-------------|--------------|
| | 2004 | 2005 | 2006 | 05/04 | 06/05 |
| Airtime, connection and access | 12,738 | 16,191 | 20,085 | 27.1 | 24.1 |
| Data revenue | 1,039 | 1,340 | 2,038 | 29.0 | 52.1 |
| Interconnection | 5,785 | 5,924 | 6,697 | 2.4 | 13.0 |
| Equipment sales | 2,275 | 2,687 | 3,986 | 18.1 | 48.3 |
| International airtime | 659 | 887 | 971 | 34.6 | 9.5 |
| Other sales and services | 359 | 286 | 266 | (20.3) | (7.0) |
| Revenue | 22,855 | 27,315 | 34,043 | 19.5 | 24.6 |

Airtime, connection and access

Vodacom's airtime, connection and access revenue increased by 24.1% to R20.1 billion (2005: R16.2 billion) during the year

ended March 31, 2006, primarily due to the increase in the number of customers, offset by declining ARPUs in all operations.

REVENUE *continued*

Data revenue – geographical split

| Year ended March 31 | Rand millions | | | % change | |
|---------------------|---------------|--------------|--------------|-------------|--------------|
| | 2004 | 2005 | 2006 | 05/04 | 06/05 |
| South Africa | 943 | 1,246 | 1,886 | 32.1 | 51.4 |
| Tanzania | 91 | 74 | 108 | (18.7) | 45.9 |
| DRC | – | 9 | 25 | – | 177.8 |
| Lesotho | 5 | 9 | 16 | 80.0 | 77.8 |
| Mozambique | – | 2 | 3 | – | 50.0 |
| Data revenue | 1,039 | 1,340 | 2,038 | 29.1 | 52.1 |

Vodacom's data revenue increased by 52.1% to R2.0 billion (2005: R1.3 billion), mainly due to new data initiatives such as 3G, HSDPA, Vodafone live!, BlackBerry®, Mobile TV as well as the popularity of SMS and other data products. Vodacom South Africa transmitted 3.5 billion (2005: 2.4 billion) SMSs over its network during the year ended March 31, 2006, up 45.5% from 2005. The number of active data users on the South African network as at March 31, 2006 was: MMS users 867,119 (2005: 328,974); GPRS users 1,386,329

(2005: 579,581); 3G Vodafone Mobile Connect data card users 37,798 (2005: 5,101); 3G active handsets 179,576 (2005: 10,878); Vodafone live! users 351,427; Unique Mobile TV users 12,903. The contribution to data revenue from other African operations increased to 7.4% (2005: 7.0%) of total data revenue. Data revenue now constitutes 7.0% (2005: 5.6%) of service revenue (service revenue excludes equipment sales, starter pack sales and non-recurring revenue).

Interconnection

During the year, Vodacom's interconnection revenue increased by 13.0% to R6.7 billion (2005: R5.9 billion), primarily due to the growth in off-net incoming mobile traffic.

Equipment sales

Vodacom's revenue from equipment sales increased by 48.3% to R4.0 billion (2005: R2.7 billion) during the year. In South Africa handset sale volumes increased by 58.3% to 3.8 million (2005: 2.4 million) units. The growth in equipment unit sales was primarily driven by growth in customer bases, cheaper Rand prices of new handsets, coupled with added functionality of new phones based on new technologies.

International airtime

International airtime increased by 9.5% to R971 million (2005: R887 million) for the year ended March 31, 2006. International airtime revenues comprise international calls by Vodacom customers, roaming revenue from Vodacom's customers making and receiving calls while abroad and revenue from international customers roaming on Vodacom's networks.

Other sales and services

Other sales and services decreased by 7.0% to R266 million (2005: R286 million). Revenue from other sales and services includes income from Vodacom's cell captive insurance scheme, wireless application service provider ("WASP") revenue, site sharing rental income as well as other revenue from non-core operations.

| Adjusted profit from operations | 5,235 | 6,478 | 8,866 | 23.7 | 36.9 |

Notes

1. The Group restated lease payments and receipts under operating leases in order to recognise the expenses and income on a straight-line basis over the lease terms. The Group previously recognised the expenses and the income based on the amount paid or payable and received or receivable for each period. The impact of these restatements is immaterial.
2. During the year ended March 31, 2004, 51% of Vodacom Congo was proportionally consolidated in the Group financial statements. Effective April 1, 2004, Vodacom Congo is being fully consolidated as a subsidiary after certain clauses granting the outside shareholders participating rights have been removed from the shareholders' agreement. The adjusted profit from operations for 2004 reflects 100% of Vodacom Congo's profit from operations for comparative purposes.

Profit from operations for the Group increased by 36.9% to R8.9 billion (2005: R6.5 billion) for the year ended March 31, 2006, fuelled by buoyant consumer spending and a low inflationary environment in South Africa as well as successful cost containment in all operations. A healthy increase in on-net traffic also contributed favourably to profit margins. Operating expenses increased by 20.8% which was

lower than revenue growth of 24.6%. This resulted in Vodacom's profit from operations margin increasing to 26.0% (2005: 23.7%). The profit from operations for the Group was negatively impacted by losses in Mozambique of R144 million, acquisition costs associated with high levels of contract customer connections and retentions in South Africa and prepaid customer connections in all operations.

Notes

1. The Group restated lease payments and receipts under operating leases in order to recognise the expenses and income on a straight-line basis over the lease terms. The Group previously recognised the expenses and the income based on the amount paid or payable and received or receivable for each period. The impact of these restatements is immaterial.
2. During the year ended March 31, 2004, 51% of Vodacom Congo was proportionally consolidated in the Group financial statements. Effective April 1, 2004, Vodacom Congo is being fully consolidated as a subsidiary after certain clauses granting the outside shareholders participating rights have been removed from the shareholders' agreement. The adjusted EBITDA for 2004 reflects 100% of Vodacom Congo's EBITDA for comparative purposes.

EBITDA increased by 23.1% to R11.8 billion (2005: R9.6 billion) for the year ended March 31, 2006, with South Africa (including holding companies) contributing 93.4% and the other African operations contributing 6.6% to EBITDA. The EBITDA margin decreased to 34.7% (2005: 35.1%). The decline in the EBITDA margin is primarily the result of the

full year impact of the global alliance fees paid to Vodafone, higher transmission and infrastructure costs as well as higher call centre costs, especially in South Africa and Tanzania. Vodacom's EBITDA margin, adjusted for the impact of the low margin cellular phone and equipment sales, was 39.9% (2005: 40.1%).

| Other operating income | (58) | (64) | (125) | 10.3 | 95.3 |
| Operating expenses¹ | 17,630 | 20,837 | 25,177 | 18.2 | 20.8 |

Note

1. The Group restated lease payments and receipts under operating leases in order to recognise the expenses and income on a straight-line basis over the lease terms. The Group previously recognised the expenses and the income based on the amount paid or payable and received or receivable for each period. The impact of these restatements is immaterial.

Depreciation, amortisation and impairment

Depreciation, amortisation and impairment decreased by 5.4% to R2.9 billion (2005: R3.1 billion) in the year ended March 31, 2006. The implementation of IAS 16: Property, Plant and Equipment contributed to the lower depreciation charge for the period. A portion of Mozambique's asset impairment of the prior year was reversed due to an increase in the fair value of infrastructure assets (net impairment reversal for the year: R53 million).

Payments to other network operators

Payments to other network operators increased by 26.9% to R4.6 billion (2005: R3.7 billion) in 2006 as a result of an increased amount of outgoing traffic terminating on other cellular networks, rather than on fixed-line networks.

Other direct network operating costs

Other direct network operating costs increased by 24.6% to R13.7 billion (2005: R11.0 billion) in the year ended

March 31, 2006. Other direct network operating costs include the cost to connect customers onto the network as well as other expenses such as cost of equipment and accessories sold, commissions paid to the distribution channels, customer retention expenses, regulatory and license fees, distribution expenses, transmission costs as well as site and maintenance costs.

Staff expenses

Staff expenses increased by 23.5% in the year ended March 31, 2006 to R2.0 billion (2005: R1.7 billion), primarily as a result of an increase in headcount of 9.3% to 5,459 (2005: 4,993) employees in 2006, to support the growth in operations, an increase in the provision for Vodacom's bonus schemes due to increased profits, the first time provision for long-term incentives payable to executives as well as annual salary increases. Employee productivity has improved in all of Vodacom's operations, as measured by customers per employee, improving by 38.9% to 4,308 (2005: 3,101) customers per employee.

Marketing and advertising

Marketing and advertising expenses increased by 27.4% in 2006 to R977 million (2005: R767 million), mainly driven by new technologies and enhancing brand presence in all operations.

General administration expenses

General administration expenses increased by 38.9% to R1.0 billion (2005: R751 million), where the increase was primarily as a result of the customer care centre solutions and various other increases due to the growth in the business. General administration expenses comprise expenses such as accommodation, information technology costs, office administration, consultant expenses, social economic investment and insurance.

Other operating income

Other operating income increased by 95.3% to R125 million (2005: R64 million). Other operating income comprises income that Vodacom does not consider as part of its core activities, such as cost recoveries for risk management and consultancy services and franchise fees received.

Note

1. During the year ended March 31, 2004, 51% of Vodacom Congo was proportionally consolidated in the Group financial statements. Effective April 1, 2004, Vodacom Congo is being fully consolidated as a subsidiary after certain clauses granting the outside shareholders participating rights have been removed from the shareholders' agreement. The adjusted capital expenditure for 2004 reflects 100% of Vodacom Congo's capital expenditure for comparative purposes.

Cumulative capital expenditure – geographical split

| Year ended March 31 | 2005 | | 2006 | |
|---------------------------------------|-------------|---------|-------------|----------------|
| | R billions | Foreign | R billions | Foreign |
| South Africa (R billions) | 20.3 | - | 24.1 | - |
| Tanzania (TSH billions) | 1.4 | 240.1 | 1.5 | 297.6 |
| DRC ¹ (US\$ millions) | 1.8 | 281.0 | 2.0 | 323.1 |
| Lesotho (Maloti millions) | 0.2 | 211.0 | 0.2 | 225.0 |
| Mozambique (MZM billions) | 0.7 | 2,173.7 | 0.6 | 2,644.6 |
| Holding companies (R billions) | - | - | 0.1 | - |
| Cumulative capital expenditure | 24.4 | - | 28.5 | - |

The total cumulative capital expenditure of the Group at March 31, 2006 increased by 16.8% to R28.5 billion (2005: R24.4 billion). The Group invested R5.1 billion (2005: R3.5 billion) in property, plant and equipment and computer software for 2006, of which R4.2 billion (2005: R2.8 billion) was for cellular network infrastructure (excluding software).

It is Vodacom's policy to hedge all foreign denominated commitments of South African operations. However, Vodacom does not qualify for hedge accounting in terms of IAS 39 and therefore, all capital expenditure in South Africa is recorded at the exchange rate ruling at the date of acceptance of the equipment. Capital expenditure of Vodacom's other African operations is translated at the average exchange rate of the Rand against the operation's reporting currency for the period, while closing capital expenditure is translated at the closing exchange rate of

the Rand against the reporting currency. For this reason, Vodacom's capital expenditure in any given year cannot be properly evaluated without taking the exchange rate movements against the Rand into account.

FUNDING

Vodacom's net debt position has increased to R709 million (2005: R426 million) as at March 31, 2006. The Group's net debt to EBITDA ratio was 6.0% (2005: 4.4%) while Vodacom's net debt to equity ratio increased to 8.2% (2005: 5.4%). However, the final dividend of R2.8 billion, which was paid on April 5, 2006, should be taken into account when evaluating the net debt to equity ratio. In addition, in terms of covenant calculations, intangible assets are excluded from the calculation. If the shareholders for dividends is included and intangible assets are excluded from the calculation, the net debt to equity ratio at March 31, 2006, increased to 45.9% (2005: 32.0%).

| Net debt | 426 | 709 | | | | | | |

EFFECTIVE TAX RATE

Vodacom's effective tax rate decreased to 37.5% (2005: 40.2%) primarily as a result of the reduction in the statutory South African tax rate of 1.0% to 29.0% (2005: 30.0%), as well as no additional Mozambique impairments being raised in the current period for which no deferred taxation asset was recognised. Secondary taxation on companies ("STC") increased Vodacom's effective tax rate by 6.9% (2005: 6.6%).

SHAREHOLDER DISTRIBUTIONS

Dividends declared for the 2006 financial year totalled R4.5 billion (2005: R3.4 billion), an increase of 32.4%. The final dividend of R2.8 billion was paid on April 5, 2006.

CONCLUSION

Vodacom has performed well in an evolving and competitive African market. The South African market continues its robust trend and management believes that the market is far from being saturated. The strong cash generation ability of Vodacom's South African operations ensured a healthy consolidated balance sheet, despite substantial dividend payouts. In South Africa, Vodacom intends to strategically

position itself to negate the impact of the pending deregulation of the South African market and plans to seize any emerging opportunities. With its strong brand and strong balance sheet, the Group is well positioned to remain the leading player in the main markets in which it operates.

Affordability is the key to market penetration in all markets and Vodacom will continue to re-evaluate its tariffs and introduce innovative products to stimulate demand. In an ever-changing economic and regulatory environment, Vodacom is well positioned to maintain and even improve its current market leadership.

Notes

1. Customer totals are based on the total number of customers registered on Vodacom's network, which have not been disconnected, including inactive customers, as at the end of the period indicated.
2. Churn is calculated by dividing the average monthly number of disconnections during the period by the average monthly total reported customer base during the period.
3. Traffic comprises total traffic registered on Vodacom's network, including bundled minutes, outgoing international roaming calls and calls to free services, but excluding national roaming and incoming international roaming calls. Traffic for 2005 was restated to exclude packet switch data traffic.
4. ARPU is calculated by dividing the average monthly revenue during the period by the average monthly total reported customer base during the period. ARPU excludes revenues from equipment sales, other sales and services and revenues from national and international users roaming on Vodacom's networks.

DISCLAIMER

This report has been prepared and published by Vodacom Group (Proprietary) Limited. Vodacom Group (Proprietary) Limited is a private company and as such is not required by the Companies Act 61 of 1973, as amended, to publish its results.

Vodacom Group (Proprietary) Limited makes no guarantee, assurance, representation and/or warranty as to the accuracy of the information contained in this report and will not be held liable for any reliance placed on the information contained in this report.

The information contained in this report is subject to change without notice and may be incomplete or condensed. In addition, this report may not contain all material information pertaining to Vodacom Group (Proprietary) Limited and its subsidiaries.

Without in any way derogating from the generality of the foregoing, it should be noted that:

- Many of the statements included in this report are forward-looking statements that involve risks and/or uncertainties and caution must be exercised in placing any reliance on these statements. Moreover, Vodacom Group (Proprietary) Limited will not necessarily update any of these statements after the date of this report either to conform them to actual results or to changes in our expectations.
- Insofar as the shareholders of Vodacom Group (Proprietary) Limited are listed and offer their shares publicly for sale on recognised stock exchanges locally and/or internationally, potential investors in the shares of Vodacom Group (Proprietary) Limited's shareholders are cautioned not to place undue reliance on this report.

The background is a complex, abstract composition of various shades of blue. It features overlapping, semi-transparent geometric shapes, including rectangles and circles, which create a sense of depth and movement. A prominent white horizontal band runs across the middle of the image, providing a stark contrast to the blue tones. Below this band, the text 'www.vodacom.com' is centered in a clean, white, sans-serif font.
