Information in the following presentation relating to the price at which relevant investments have been bought or sold in the past or the yield on such investments cannot be relied upon as a guide to the future performance of such investments. This presentation does not constitute an offering of securities or otherwise constitute an invitation or inducement to any person to underwrite, subscribe for or otherwise acquire securities in any company within the Group.

Promotional material used in this presentation that is based on pricing or service offering may no longer be applicable.

This presentation contains certain non-GAAP financial information which has not been reviewed or reported on by the Group's auditors. The Group's management believes these measures provide valuable additional information in understanding the performance of the Group or the Group's businesses because they provide measures used by the Group to assess performance. However, this additional information presented is not uniformly defined by all companies, including those in the Group's industry. Accordingly, it may not be comparable with similarly titled measures and disclosures by other companies. Additionally, although these measures are important in the management of the business, they should not be viewed in isolation or as replacements for or alternatives to, but rather as complementary to, the comparable GAAP measures.

This presentation also contains forward-looking statements which are subject to risks and uncertainties because they relate to future events. These forward-looking statements include, without limitation, statements in relation to the Group's projected financial results. Some of the factors which may cause actual results to differ from these forward-looking statements are discussed on slides 33-36 of this presentation.

Definitions

Active customers	Active customers are based on the total number of mobile customers using any service during the last three months. This includes customers paying a monthly fee that entitles them to use the service even if they do not actually use the service and those customers who are active whilst roaming.
Active data customers	Number of unique customers who have generated revenue related to any data activities in relation to mobile data revenue (this excludes SMS and MMS messaging users) in the reported month. A user is defined as being active if they are paying for a contractual monthly fee for this service or have used the service during the reported period.
Adjusted growth (**)	We changed our accounting estimate relating to revenue recognition of un-recharged vouchers resulting in a positive adjustment of R325 million in September 2014 in South Africa.
ARPU	Total ARPU is calculated by dividing the average monthly service revenue by the average monthly active customers during the period.
Contribution margin	Revenue less direct expenses as a percentage of revenue.
EBITDA	Earnings before interest, taxation, depreciation and amortisation, impairment losses, profit/loss on disposal of investments, property, plant and equipment, and intangible assets, profit/loss from associate and joint venture, restructuring cost and BEE income/charge.
Free cash flow	Cash generated from operations less additions to property, plant and equipment and intangible assets, proceeds on disposal of property, plant and equipment and intangible assets, tax paid, net finance charges paid and net dividends received/paid to minority shareholders.
HEPS	Headline earnings per share.
International	International comprises the segment information relating to the non-South African-based cellular networks in Tanzania, the Democratic Republic of Congo, Mozambique and Lesotho as well as the operations of Vodacom International Limited and Vodacom Business Africa Group (Pty) Limited and its subsidiaries.
MOU	Minutes of use per month is calculated by dividing the average monthly minutes (traffic) during the period by the average monthly active customers during the period.
Normalised growth (*)	Adjusted for trading foreign exchange and at a constant currency (using current year as base) from ongoing operations.
Operating free cash flow	Cash generated from operations less additions to property, plant and equipment and intangible assets other than licence and spectrum payments and purchases of customer bases, net of proceeds on disposal of property, plant and equipment and intangible assets, other than license and spectrum payments and disposals of customer bases.
South Africa	Vodacom (Pty) Limited, a private limited liability company duly incorporated in accordance with the laws of South Africa and its subsidiaries, joint ventures and SPVs.
Traffic	Traffic comprises total traffic registered on Vodacom's mobile network, including bundled minutes, promotional minutes and outgoing international roaming calls, but excluding national roaming calls, incoming international roaming calls and calls to free services.

Forward-looking statements

This presentation which sets out the interim results for Vodacom Group Limited for the six months ended 30 September 2015 contains 'forward-looking statements', which have not been reviewed or reported on by the Group's auditors, with respect to the Group's financial condition, results of operations and businesses and certain of the Group's plans and objectives. In particular, such forward-looking statements include statements relating to: the Group's future performance; future capital expenditures, acquisitions, divestitures, expenses, revenues, financial conditions, dividend policy, and future prospects; business and management strategies relating to the expansion and growth of the Group; the effects of regulation of the Group's businesses by governments in the countries in which it operates; the Group's expectations as to the launch and roll out dates for products, services or technologies; expectations regarding the operating environment and market conditions; growth in customers and usage; and the rate of dividend growth by the Group.

Forward-looking statements are sometimes, but not always, identified by their use of a date in the future or such words as 'will', 'anticipates', 'aims', 'could', 'may', 'should', 'expects', 'believes', 'intends', 'plans' or 'targets'. By their nature, forward-looking statements are inherently predictive, speculative and involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future, involve known and unknown risks, uncertainties and other facts or factors which may cause the actual results, performance or achievements of the Group, or its industry to be materially different from any results, performance or achievement expressed or implied by such forward-looking statements. Forward-looking statements are not guarantees of future performance and are based on assumptions regarding the Group's present and future business strategies and the environments in which it operates now and in the future.

All subsequent oral or written forward-looking statements attributable to the Group or any member thereof or any persons acting on their behalf are expressly qualified in their entirety by the cautionary statements above and below. Vodacom expressly disclaims any liability in respect of the content of any forward looking statement and also expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein or to reflect any change in their expectations with regard thereto or any change in events, conditions or circumstances on which any such forward-looking statement is based.
