

## **Vodacom signs additional FTTH lease agreements, announces new price plans.**

---

21 June 2017 – Vodacom has extended its Fibre-To-The-Home (FTTH) network through signing new lease agreements with third-party network infrastructure providers Link Africa, Octotel, Frogfoot and Waterfall Access Network (WAN). Vodacom customers will now have access to Vodacom Fibre services through these providers, including Vodacom Fibre Broadband, Vodacom Fibre Fixed Voice and Value-Added Services.

Zunaid Mahomed, Group Digital and Fixed Services Officer at Vodacom says: **“Vodacom continues to seek opportunities to enter into strategic agreements to sell our services through other network infrastructure providers.”**

Vodacom has also announced new packages and price adjustments on its current wholesale FTTH networks including Vumatel, Openserve, Fibrehoods, Century City, Metro Fibre Network, SA Digital Villages and Dark Fibre Africa Parkview (DFA). Vodacom customers can now enjoy broadband data at more affordable rates. Customers can view the pricing for the various FTTH networks on [www.vodacom.co.za/fibre](http://www.vodacom.co.za/fibre).

Furthermore, Vodacom has launched revised products and pricing on its self-built networks and introduced uncapped and symmetrical price plans. Through these services, customers will be able to use as much data as they want at all times without worrying about running out of data or topping up. Customers on self-built networks can now receive the benefit of purchasing symmetrical price plans that allow for the same upload and download speeds.

The uncapped price plans have been introduced in addition to the existing capped price plans on offer. Both the uncapped and capped offerings are available as month to month, 12 month or 24 month options.

For more information please visit [www.vodacom.co.za/fibre](http://www.vodacom.co.za/fibre) or call 082 1904.

**About the Vodacom Group**

Vodacom Group Limited (Vodacom) is a leading African mobile communication company providing a wide range of communication services, including mobile voice, messaging, data and converged services to over 61 million customers. From our roots in South Africa, we have grown our mobile network business to include operations in Tanzania, the DRC, Mozambique and Lesotho. Our mobile networks cover a total population of approximately 200 million people. Through Vodacom Business Africa (VBA), we also offer business managed services to enterprises in 30 countries across the continent. Vodacom is majority owned by Vodafone (65% holding), one of the world's largest mobile communications companies by revenue.
